

Portsmouth Safeguarding Adults Board Conference
'Perspectives on Managing Risk'
Friday 8th March 9.00am-4.15pm
Portsmouth Football Club, Victory Suite

This is a conference for all those who work with adults at risk in Portsmouth including those in primary and secondary care, higher education, emergency services, criminal justice, adult social care, mental health services, housing and the voluntary sector.

Conference speakers will explore central themes of:

- legal literacy
- the impact of trauma, and
- the contributions of different professions and sectors.

Throughout the day conference participants will be encouraged to engage with as many people as possible to explore ideas especially across professional boundaries and to exercise curiosity about each person's experience of safeguarding adults at risk. We want to encourage multiple conversations and sharing.

Tea, coffee and lunch will be provided.

Directions and information about the venue will follow.
